

AP Exams @ RRHS

See schedule below. Arrive at 7:30 outside auditorium for morning exams, at 11:30 outside auditorium for afternoon exams. Do not plan to ride the bus to morning exams, and do not expect to be finished by the time the buses run on afternoon exams.

Bring two sharp number 2 pencils and two black or dark blue pens. See rest of handout for calculator policy and other things to bring and not bring. NO CELLPHONES OR ELECTRONIC DEVICES will be allowed in the test room.

Special Notes:

- The auditorium can get cold quickly during AP Exams. Bring a jacket in case you get cold.
- Calculators, pencils, and pens will not be provided. Students must be responsible for their own testing materials.
- If you are scheduled to take two exams in one day, bring a sack lunch to eat quickly when you are done with the first test.

2019 AP Exam Schedule

Table with 6 columns: Week 1, Monday, May 6, Tuesday, May 7, Wednesday, May 8, Thursday, May 9, Friday, May 10. Rows include Morning (8 a.m. Local Time) and Afternoon (12 p.m. Local Time) sessions with subjects like United States Government and Politics, Spanish Language and Culture, English Literature and Composition, Chemistry, Spanish Literature and Culture, United States History, Chinese Language and Culture, Japanese Language and Culture, European History, French Language and Culture, German Language and Culture, Psychology, Computer Science Principles, Environmental Science, Physics 1: Algebra-Based, and Physics 2: Algebra-Based.

STUDIO ART—May 10, 2019, 8 p.m. ET, is the last day for your AP coordinator to submit your Studio Art portfolio digital sections to the AP Program, but you will need to complete this work and submit it to your teacher well in advance of May 10. (See page 8.) If you are submitting a 2-D Design or Drawing portfolio, you must meet with your AP teacher and AP coordinator on or before May 10 to assemble the Selected Works (Quality) section of your portfolio (the physical artwork that is mailed to the AP Program).

Table with 6 columns: Week 2, Monday, May 13, Tuesday, May 14, Wednesday, May 15, Thursday, May 16, Friday, May 17. Rows include Morning (8 a.m. Local Time), Afternoon (12 p.m. Local Time), and Afternoon (2 p.m. Local Time) sessions with subjects like Biology, Calculus AB, Calculus BC, English Language and Composition, Comparative Government and Politics, World History, Microeconomics, Music Theory, Physics C: Mechanics, Art History, Human Geography, Italian Language and Culture, Macroeconomics, Statistics, Computer Science A, Latin, and Physics C: Electricity and Magnetism.

✓ What to Bring to the Exam Room

- Two sharpened No. 2 pencils with erasers, for all responses on your multiple-choice answer sheet. (Students outside the U.S.: bring HB or No. 2 pencils.)
- Two pens with black or dark blue ink for completing areas on the exam booklet covers and for free-response questions in most exams.
- Your 6-digit school code. Homeschooled students will be provided with their state's or country's homeschool code at the time of the exam.
- A watch that does not have internet access, does not beep, and does not have an alarm.
- Up to two approved calculators with the necessary capabilities if you're taking the AP Biology, Calculus, Chemistry, Physics, or Statistics Exams. Visit apstudents.org/courses to find the calculator policy for your subject. For a list of approved graphing calculators, visit apstudents.org/calculators.
- A ruler or straightedge only if you're taking an AP Physics Exam. Protractors are not allowed.
- Your AP Student Pack. If you don't attend the school where you're taking the exam, you must also bring a current government-issued or school-issued photo ID.*
- If you've been approved for testing accommodations, bring your SSD Student Accommodation letter to verify your approval.

✗ What NOT to Bring to the Exam Room**

- Electronic equipment (phones, smartwatches, or wearable technology of any kind, laptops, tablet computers, Bluetooth devices, portable listening or recording devices—MP3 player, iPod®, etc.—cameras or other photographic equipment, devices that can access the internet, separate timers of any type, and any other electronic or communication devices) are prohibited in the exam room and break areas. School-owned recording devices and equipment are allowed **only** for the AP French, German, Italian, and Spanish Language and Culture Exams and the AP Music Theory Exam.
 - Books, compasses, protractors, mechanical pencils, No. 3 pencils, correction fluid, dictionaries, highlighters, notes, or colored pencils.
 - Scratch paper; notes can be made on portions of the exam booklets or, for Chinese Language and Culture and Japanese Language and Culture **only**, on scratch paper provided by the proctor.
 - Watches that beep or have an alarm.
 - Computers or calculators (except as previously noted).
 - Reference guides, keyboard maps, or other typing instructions.
 - Ear plugs.
 - Clothing or shoes with subject-related information.
 - Food or drink.
 - Clipboards.
-

Calculator Policy

Calculators are allowed only for some or all parts of AP Exams in these subjects: Biology, Calculus (AB/BC), Chemistry, Physics 1, Physics 2, Physics C: Mechanics, Physics C: Electricity and Magnetism, and Statistics. (Calculators are not allowed for any other AP Exams, including Macroeconomics, Microeconomics, and Environmental Science.) Students may bring up to two permitted calculators to the exam. Graphing calculators must be on the approved calculator list. See page 53.

Biology

Type of Calculator	Exam Section I Multiple Choice	Exam Section II Free Response
<ul style="list-style-type: none">Allowed:<ul style="list-style-type: none">Four-function calculator (with square root)Scientific (nongraphing) calculator, but must not have unapproved features or capabilities (see the list of unapproved calculators and technology on page 51)Graphing calculator	Allowed	Allowed

Calculus AB/Calculus BC

Type of Calculator	Exam Section I Multiple Choice	Exam Section II Free Response
<ul style="list-style-type: none">Graphing calculator required and expected to have built-in capability to:<ul style="list-style-type: none">Plot the graph of a function within an arbitrary viewing windowFind the zeros of functions (solve equations numerically)Numerically calculate the derivative of a functionNumerically calculate the value of a definite integralIf these capabilities aren't built in, the student should enter appropriate programs into the calculator before the examNot allowed:<ul style="list-style-type: none">Nongraphing and other types of calculators are prohibited, even as a second calculator	Not allowed for Part A Required* for Part B	Required* for Part A Not allowed for Part B

*"Required" indicates some questions cannot be answered without a graphing calculator and no other calculator type is permitted.

Chemistry

Type of Calculator	Exam Section I Multiple Choice	Exam Section II Free Response
<ul style="list-style-type: none">Allowed:<ul style="list-style-type: none">Four-function calculator (not recommended)Scientific (nongraphing) calculator (recommended), but must not have unapproved features or capabilities (see the list of unapproved calculators and technology on page 51)Graphing calculator	Not allowed	Allowed

Physics 1, Physics 2, Physics C: Mechanics, Physics C: Electricity and Magnetism

Type of Calculator	Exam Section I Multiple Choice	Exam Section II Free Response
<ul style="list-style-type: none">Allowed:<ul style="list-style-type: none">Four-function calculatorScientific (nongraphing) calculator, but must not have unapproved features or capabilities (see the list of unapproved calculators and technology on page 51)Graphing calculator	Allowed	Allowed

Statistics

Type of Calculator	Exam Section I Multiple Choice	Exam Section II Free Response
<ul style="list-style-type: none"> Allowed: <ul style="list-style-type: none"> Graphing calculator with statistical capabilities expected* Scientific (nongraphing) calculator if the calculator has the required statistics computational capabilities described in the AP Statistics Course Description <ul style="list-style-type: none"> Computational capabilities should include standard statistical univariate and bivariate summaries, through linear regression Required capabilities may be either built in or programmed into the calculator before the exam Graphical capabilities should include common univariate and bivariate displays such as histograms, boxplots, and scatterplots It is up to the student to determine if the calculator meets the criteria of required computational and graphical capabilities Not allowed: <ul style="list-style-type: none"> Enhancements other than those that improve the calculator's computational and/or graphical functionalities are prohibited. Unacceptable enhancements include, but are not limited to, keying or scanning text or response templates into the calculator 	Expected*	Expected*

* Although scientific calculators with computational capabilities (standard statistical univariate and bivariate summaries, through linear regression) are allowed, students are expected to use a graphing calculator.

Ask AP teachers to remind students several days before the exam to:

- bring the appropriate calculator on exam day
- check the features that are required or not permitted
- check the batteries in the calculator (fresh batteries are recommended)

Teachers should refer students to apstudents.org/calculators for the most current list of approved graphing calculators. Students may bring up to two calculators to exams, but they cannot share them.

EXAM SECURITY Since graphing calculators can be used to store data, including text, proctors should monitor that students are using their calculators appropriately. Attempts by students to use the calculator to remove exam content from the room may result in the cancellation of AP Exam scores. However, calculator memories do not need to be cleared before or after the exam.

For security reasons, some calculators require special instructions.

- Calculators with large display (characters of $\geq 1"$ or display raised from the horizontal (tilted or hinged screen) may be visible to other students, so seat students using these calculators at the back of the testing room.
- Calculators with infrared communication capabilities are permitted. However, because data can be exchanged between these calculators if they are aligned and close together, proctors should make sure that students keep their calculators sufficiently far apart and the infrared ports are not facing each other.
- Calculators with built-in physical constants, metric conversions, and physics, chemistry, or mathematics formulas are permitted. Calculator memories do not need to be cleared before or after the exam.

- The Hewlett-Packard 48-50 Series and Casio FX-9860 graphing calculators may use memory cards designed for use with those calculators.
- The Casio FX-CG500 calculator is permitted only without the use of the stylus.

Unacceptable calculators and technology

- Phones, smartwatches, or wearable technology of any kind
- Portable/handheld computers, tablets, laptops, electronic writing pads
- Models with QWERTY (i.e., typewriter-like) keypads as part of the hardware or software (e.g., TI-92 Plus, Voyage 200)
- Models with pen-input/stylus capability (e.g., Palm, PDAs, Casio ClassPad)
- Models with wireless, Bluetooth, or cellular capability
- Models that require an electrical outlet, "talk" or make noise, or have a paper tape
- Models that can access the internet
- Models that have cell phone capability or audio/video recording or playing capability
- Models that have a camera, scanning capability, or any other smartphone-type features
- Models with touch-screen capability that aren't on the list of approved graphing calculators (e.g., Casio ClassPad)
- Hardware peripherals such as a stylus, keyboard, or wireless adapter with an approved calculator

*Unless approved by the College Board SSD Office as an accommodation

School-supplied backup calculators

It is advisable that schools have a supply of functioning AP-approved calculators with fresh batteries on exam day to provide:

- If a student arrives without a calculator
- If a student arrives with an unacceptable calculator
- If a calculator malfunctions during the administration

Call AP Services for Educators immediately if:

- A student is unable to use the offered calculator
- A student is unfamiliar with the operation of an offered calculator
- You run out of or don't have spare calculators and still have students who want and need them

NOTE: School-supplied graphing calculators must be on the approved calculator list on page 53.

Calculator Release Statement

If the option of providing a calculator isn't feasible, or if a student doesn't want to use a calculator, they can take an exam without one. However, if a student chooses to take an exam without a calculator, they must hand copy, date, and sign the Calculator Release Statement that follows and indicate the name of the exam being taken. Return the release statement in the exam shipment (see page 77).

It is my decision to take the AP [Biology] [Calculus] [Chemistry] [Physics] [Statistics] Exam without a calculator. I will not use the absence of a calculator as a reason to challenge my score on this exam.

Student Name: _____ Date: _____

Student Signature: _____ AP #: _____

* Graphing calculators with the expected built-in capabilities for AP Calculus are indicated with an asterisk. See the *AP Calculus AB and AP Calculus BC Course and Exam Description, effective Fall 2016* for details. However, students may bring any calculator on the list to the exam; any model within each series is acceptable. Only approved graphing calculators from the list are permitted for the AP Calculus Exams.

† The use of the stylus is not permitted.

This list will be updated at collegeboard.org/ap/calculators, as necessary, to include new approved calculators. Check this list periodically, and before the administration of the exams, to ensure that students have the most up-to-date information.

This list only includes approved graphing calculators. There is not an approved list of scientific (nongraphing) calculators.

Refer to AP Bulletin for Students and parents of all other information.
