

Georgia Department of
Behavioral Health & Developmental Disabilities

Your voice matters! Your help is needed to spread the word about an important statewide survey to identify the community needs of Georgians with disabilities.

The Regional Advisory Councils of the Georgia Department of Behavioral Health and Developmental Disabilities (DBHDD) have launched a major study of the needs of people with mental illnesses, addictive diseases, and intellectual/developmental disabilities.

The survey is called *Identifying Independence and Recovery Needs in Georgia* and is free, anonymous, and open to all residents of Georgia. Below are the links to the English and Spanish online versions:

English: <https://www.surveymonkey.com/r/GeorgiaNeeds>

Spanish: www.surveymonkey.com/r/spGeorgiaNeeds

We want to hear from 8,000 Georgians representing all 159 counties. The survey period will close on April 15, 2019.

Please respond to the survey yourself, encourage others to participate, and share this information on your social media.

If you have any questions or would like further information, please contact Zenawit Nerae, our Community Involvement Intern, at gadbhddinternzn@gmail.com or 240-360-0583.

Thank you for helping improve the lives of Georgians with mental illnesses, addictive diseases, and intellectual/developmental disabilities.

Kindest regards,

Georgia DBHDD Regional Advisory Councils
