## Welcome to Food Finder GA

The Fastest Way to Find Food Resources in Georgia

Click or Tap a Button To Find Food Near Your:

School

Home

Current Location

FoodFinderGA is a free smartphone app developed by a Georgia public school graduate. It is available on the [Apple App Store](#) or [Google Play](#) right now (search: foodfinderga)

The app creates a 100% anonymous, direct connection between students who need food with their closest free food provider.

Both the FoodFinderGA app and the website - [www.foodfinderga.org](http://www.foodfinderga.org) - are year-round resources, but data shows a dramatic increase in use when school is out of session, and the need for food is greatest.

Please download the app today and tell your students about it before the Holiday breaks.

**Thank you!**
